

Trini Garcia Valicente

Full Stack Web Developer

I'm a 23 year old woman with experience in React, JavaScript, HTML, CSS, Node, Express and SQL. With great interest in backend development. Proactive, team-player and fast learner.

EXPERIENCE & PROJECTS

Henry Buenos Aires, Argentina — *Teaching Assistant*

JUNE 2022 - AUG 2022

- **Lead and coordinated** group of students.
- **Accelerated** the integration of students in the group to help them rely on each other and achieve their goals.
- The group I **assessed** has the largest number of passing students in the class.

Henry — *Backend Developer in E-commerce project*

JULY 2022 - AUG 2022

- **Achieved** the goals we proposed using the Sprint method and successfully co-worked in group with constant communication.
- **Coded** Authentication and Authorization systems for users using Passport JS and Firebase, designed the building blocks of the project: database systems with SQL and Express routes.
- **Connected** backend with frontend achieving cart and mailing functionality.

Henry — *Full Stack Web Developer in 'Foods' project*

JUNE 2022 - JULY 2022

Created from the ground up my first project: a Recipes web page using an API to organize, filter, sort and create new recipes, using technologies such as SQL, Express, React, Redux and JavaScript.
